Notes on Certification Scope

- **Calumet Electronics** holds the most specialized defense/aerospace stack in the group, including IPC-1791 QML, Nadcap Merit, and HUBZone, making it America's only HUBZone-certified major PCB manufacturer.
- **CviLux** has the broadest multi-standard ISO portfolio, with certifications spanning quality, environmental, automotive, occupational health, energy management, and information security across multiple global factories.
- **PacRim Manufacturing** operates as an offshoring partner; certifications are held at the factory level and vary by program (plastics, metals, electronics). Their certification page confirms alignment with ISO 13485, AS9100, IATF 16949, and ISO 14001.
- **Micropower Direct's** WBENC/WOSB designation is a business diversity certification, not a product quality standard, is officially listed as a company credential.

- **PHD Energy** supports battery certification compliance (UL, IEC, UN) as part of their manufacturing service offering, meaning they help customers obtain certifications for finished battery pack designs.
